Light Barrier Systems (Contamination Insensitive)

1.113 500

VS 111A-302 (VS 111A-302)

Outlet:	relay 6 A/250 VAC, max. 100mAm short circuit protected
Failing delay:	0...15 s adjustable
Specialty:	connection socket S11 supply included
Nominal voltage:	24 VAC
Operational temperature:	-25°C ...+55°C
Switch-on delay:	0...15 s adjustable
Function displays:	LED green: power on, LED yellow: signal indicator, LED red: output
Help functions:	light-dark-on programmable, adjustment for sensitivity
Power consumption:	max. 3 W
Range:	see sender and receiver
Switching frequency:	5 Hz
Protection class:	IP40
