

Reflective Lightbarrier (Miniature Sizes Without External Amplifier)

# RAHW 3115

## 31 (PNP-NC)

|                               |                               |
|-------------------------------|-------------------------------|
| Connection:                   | 2 m PVC cable                 |
| Connection type:              | cable                         |
| Switching frequency:          | ≤ 1 ms                        |
| Outlet:                       | PNP-NC                        |
| Design:                       | 31                            |
| Function:                     | reflective lightbarrier       |
| Case material:                | plastic                       |
| Short protection:             | yes, yes                      |
| LED outlet + stability:       | yes, yes                      |
| No-load current:              | ≤ 20 mA                       |
| Light source:                 | LED red                       |
| Switching distance frequency: | standard reflector 23 x 14 mm |
| Shock / vibration:            | - , 30 G                      |
| Protection class:             | IP 67                         |
| Voltage drop:                 | ≤ 1 VDC                       |
| Voltage range:                | 12...24 VDC                   |
| Ampacity:                     | < 50 mA                       |
| Tap range:                    | 10...200 mm                   |
| Environment temperature:      | -25 °C ...+55°C               |
