

Accessoires (Fibre Optic Amplifier)

TPLI 3021

M30 (PNP-NO+NC - programmable)

Connection:	plug M12
Connection type:	plug M12
Switching frequency:	35 ms
Outlet:	PNP-NO+NC - programmable
Design:	M30
Specialty:	resolution 0,4 mm
Adjustment range:	multiturn Potentiometer
Function:	fibre optic amplifier
Case material:	nickel plated brass
Short protection:	yes
LED outlet + stability:	yes, yes
No-load current:	≤ 50 mA
Light source:	infrared 880 nm
Switching distance frequency:	Kodak white 90 %
Switching hysteresis:	≤ 10 %
Protection class:	IP 65
Voltage drop:	≤ 2,5 VDC
Voltage range:	11...30 VDC
Ampacity:	≤ 200 mA
Tap range:	je nach Lichtleiter
Environment temperature:	-20 °C ...+60°C
